

I would dlike to take this opportunity to ask the that the FCC not allow this to impact the existing stations in my area. I have been so thrilled having AIR-1 on the air this past year. This type of uplifting music and dialog are rare enough these days. My family has been blessed and encouraged by this. Please understand that this kind of media has a purpose and is certainly much needed.

Thannk you for your consideration.

Sincerely,  
Allan Logan
